The People Have Spoken

A statement from Jimmy Ray Dunn

As you may have guessed, we have, as a radio station, received thousands of website hits, phone calls and emails concerning your thoughts on what Natalie of the Dixie Chicks had to say about our Commander-In-Chief last week. And, while we do believe that she had the right to say what she said, you as a consumer have the right to voice your displeasure with her comments, and we believe that you have. We believe "the people have spoken." 97-3 The Eagle is proud of our unique history in Hampton Roads in supporting our military over the years. Navy, Marines, Army, Air Force, Coast Guard, any and all who stand for our nation to protect our freedoms. So, we feel that as a radio station of the people, by the people and for the people, we should support and reflect our listeners wishes and concerns.

The Dixie chicks are an important part of Today's Country and we do not think we should banish them forever over this unfortunate statement. However, the management and airstaff of Today's Country, 97-3 The Eagle have decided to show the Chicks and the rest of the entertainment world that we support our troops and our President in this time of conflict by immediately suspending play of all Dixie Chicks songs during locally produced programming until the Iraqi crisis is resolved. The message we send with this action is that our little corner of the world, the largest military installation on the face of the planet, stands by our loved ones serving their country, stands by our Commander-In-Chief in times of conflict no matter who it is, and stands by the United States of America and all she stands for...FREEDOM.
